The Gran Turismo 36 is the first boat in her category to combine really comfortable cruising with outstanding handling and sensations similar to those of a small outboard. Enjoy a wide variety of waterside pleasures in no time at all - start and play!

The Gran Turismo 36 sets the tone with an elegant and sporty hardtop. Her hull has zipwakes for improved stability when turning and her deck plan provides specific living spaces for use throughout the day. A large built-in sun mattress on the foredeck offers a unique sunbathing space. While the stern's hardtop complete with a sliding roof combines protection and the joy of the open air. The spacious cockpit lounge area has room for up to 8 guests. Aft, a large sunbathing area faces the sea, opposite an outdoor galley. The driving station has two bench seats facing the sea, so four people can enjoy the thrills of navigation.

No other brand stacks up on all levels as well as Beneteau with its 137-year History and boasts being one of the largest boat manufacturers in the world, the only manufacturer in this category that has advancements such as their own patented Air Step® hull technology that induces air under the hull to create lift on take-off and a bead of air between the water and hull which delivers smooth operation in a range of conditions and unparallel stability as well as improved fuel efficiency.

The only brand that boasts a CE Rating that compares with commercial survey standards, with features like the self-draining decks and raised gunwale line. This means that your Beneteau will hold its value and offer better returns once you are ready to upgrade to a new model or larger boat down the track.

The value is evident in the ultra-modern and attractive finish. The decor is smart and simple, and most importantly practical for boating and in true Beneteau fashion, keenly priced.
